2025-2026 ISI Collegiate Skating Team Registration Form

Do you have ice skaters attending your school? Going to college doesn't mean having to put ice skating on hold. Boost school spirit by forming a club to support your ***ISI Collegiate Skating Team***. This form is to be used by ***accredited colleges or universities only*** to register ***FREE OF CHARGE*** for the 2025-26 skating season, which will end 8/31/26.

Benefits for the skaters:

- Continue to participate and enjoy a sport they love.
- Participate in ISI competition events and compete with new school friends and colleagues.
- Stay fit while you take advantage of this recreational participation option, which is open to skaters of all ages and ability levels.

Benefits for the school:

- A chance for students to continue participating in ice skating while representing your school in ISI competitions throughout the academic year.
- Another healthy sport option for skaters of all ages and ability levels. With ISI's "something for everyone" philosophy, you can encourage new/beginner skaters to join your school's skating team.
- Recognition of your school's participation in local, district, and national ISI competitions.
- Having a figure skating program has proved to be a great recruiting tool for many schools. When skaters stay on the ice to participate in ice sports, we all become winners!

Collegiate team members must skate at an ISI administrative member facility or club and have their ISI tests registered through that current ISI administrative member. All Collegiate Team members must be current Individual members of the ISI. Online membership registration is available at skateisi.org

After the ISI office processes this Collegiate Team registration form, team members can choose to represent their college or university team for any and all ISI competition events during the current skating season from Sep. 1 through Aug. 31.

For information on upcoming competition events and testing requirements, please check skateisi.org
